## NOMINATIONS FOR 2021

– candidates recommended in Fredrik S. Heffermehl: “Medaljens bakside”

### I.

I refer to the purpose of Alfred Nobel’s testament as interpreted in Fredrik S. Heffermehl, *Medaljens bakside* (Sandnes 2020), to promote the creation of a demilitarized global peace order. Thinking that the candidates recommended in Part III of the book who are still alive deserve to be evaluated in 2021, I wish to nominate these people who all have served the purpose of Nobel well.
